SAFETY DATA SHEET

Revison Date: 4/26/2024 4:41:11 AM

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY

Product Name: Woodace 14 14 14 Flowering Plant Fertilizer

EPA No: Not applicable

Product Identity: Fertilizer SGN 220 Homogenous, granular

Supplier/ManufacturerLebanon Seaboard Corporation1600 East Cumberland StreetLebanon PA 17042Tel: 1-800-233-0628 USA(717-273-1685) INTLSupplier Email: customerservice@lebsea.com

Emergency telephone numbers: Chemtrec (Spill) 1-800-424-9300 Prosar (Health) 888-208-1368

2. HAZARDS IDENTIFICATION

OSHA Signal Word: None

Classification:

Hazard Statements: None

Pictogram:None

Precautionary Statements for handling: Keep out of reach of children

Precautionary Statements for disposal - Dispose in accordance with all federal, state and local regulations.

Hazards not otherwise classified (HNOC):None

Unknown acute toxicity: <1% of the mixture consists of ingredients of unknown toxicity

3. COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical Name | CAS No. | Weight % |
|---------------|-----------------------|----------|
| | 4. FIRST AID MEASURES | |

Eye ContactRinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.
Continue rinsing. If eye irritation persists: Get medical advice/attention.

Skin Contact Wash with soap and water. If injury occurs, or if discomfort or irritation persists contact a physician.

Inhalation If inhaled and discomfort occurs, move to fresh air, and keep person at rest in a position comfortable for breathing. If difficulty in breathing occurs and/or persists, administer oxygen and get medical attention. If medical advice is needed, have product container or label on hand.

Ingestion Rinse mouth. Drink Plenty of water. If you feel unwell, call a poison control center or seek medical attention. Do not induce vomiting of an unconscious person.

<u>Self-protection of the first aider:</u> Use any appropriate personal protective equipment as required for nuisance dusts.

<u>Most important symptoms and effects, both acute and delayed:</u> Nuisance dust irritation may occur with nasal discomfort under highly dusty conditions.

<u>Indication of any immediate medical attention and special treatment needed:</u> Treat Symptoms. Consult physician if discomfort or irritation persists.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media

Use extinguishing media suitable to local circumstances and the surrounding environment. Options in this case include water, CO₂, ABC Dry Chemical extinguisher, or foam. Avoid stirring up dust extinguisher stream.

Specific hazards arising from the chemical

Thermal decomposition can lead to release of irritating and toxic gases and vapors. In the event of fire, do not breathe fumes.

Explosion data

Sensitivity to mechanical impact: None

Sensitivity to static discharge: None

Note: Excessive amounts of any burnable dusts can produce explosive mixtures if allowed to disperse in the air in confined areas where ignition sources occur. Prevent excessive dust dispersal in areas of use, storage, or production.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and standard protective (bunker) gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures

| Personal Precautions | Use dust mask and gloves as needed or other reasonable personal protective equipment as required to prevent contact with eyes or skin. Remove ignition sources prior to clean-up. |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Environmental precautions | Prevent entry into waterways, sewers, basements or confined areas. Do not flush into surface water or sanitary sewer system. See Section 12 for additional ecological information. |
| Methods for containment | Prevent further leakage or spillage, if safe to do so. |

| | breathing dusts. Moisten or cover powder spill with plastic sheet or tarp to minimize spreading. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Soak up excess with inert absorbent material. Clean contaminated surface thoroughly. |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | 7. HANDLING AND STORAGE |
| Safe Handling | Ensure adequate ventilation, especially in confined areas. Use personal protective equipment as required to avoid breathing dusts or mists, and to prevent eye contact. Wash hands thoroughly after handling. |
| Storage Conditions | Keep containers tightly closed in a cool, well- ventilated place. Keep out of the reach of children. |
| Incompatible materials | Avoid strong acids or alkali, or other reactive substances. |

Use dust mask and/or reasonable personal protective equipment as required to avoid

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidlines

Methods for clean-up

| Chemical Name | ACGIH TLV | OSHA PEL | NIOSH IDLH* |
|--------------------------------|-----------------------|---------------------------|-----------------|
| Nuisance Dusts (for granulars) | 10 mg/m3 (TWA- Total) | 15 mg/m3 (TWA total) 50 | Not Established |
| | | mppcf (TWA total) 5 mppcf | |
| | | (TWA respirable) | |

*IDLH refers to amounts that are "Immediately Dangerous to Life or Health"

Engineering controls: Use with adequate ventilation and follow safe work practices to prevent dust buildup in air.

Individual protection measuresUse personal protective equipment as required to avoid breathing dust/mist, and to prevent eye contact.

Eye protectionProvide face and eye protection: face shield and goggles recommended if face or eye contact is
likely.Skin and Body ProtectionGloves and standard work coveralls recommendedRespiratory ProtectionDust mask recommended for dusty or misty conditions. If exposure limits are exceeded or
irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn.
Respiratory protection must be provided in accordance with current local regulations.General HygieneWhen using product, do not eat, drink or smoke. Wash hands thoroughly after handling. Wash
contaminated clothing before reuse.

No information available Not applicable No information available

No information available No information available Not applicable Mostly insoluble No information available No information available

10. STABILITY AND REACTIVITY

Reactivity

Not Reactive

Chemical stability

Stable

Possibility of Hazardous Reactions

May release heat and fumes when mixed in solution with incompatible reactive materials.

Hazardous polymerization

Will not occur.

Conditions to avoid

High heat, sparks and open flames, as some ingredients may be burnable.

Incompatible materials

Strong acids or alkali, or other reactive substances.

Hazardous Decomposition Products

May emit toxic fumes under fire conditions, such as Nitrogen oxides (NOx), Ammonia, Oxides of sulfur, Hydrogen chloride and Carbon monoxide.

11. TOXICOLOGICAL INFORMATION

Routes of exposure: Ingestion, eyes (contact), skin (contact), dust inhalation

| Symptoms | May irritate the digestive tract if ingested in quantity, causing nausea, vomiting and diarrhea. |
|--------------------------|--------------------------------------------------------------------------------------------------|
| Sensitization | No information available. |
| Germ cell mutagenicity | None known unless noted below in Other |
| Carcinogenicity | None |
| Reproductive toxicity | No information available. |
| STOT - single exposure | No information available |
| STOT - repeated exposure | No information available |
| Chronic toxicity | No information available |
| Target Organ Effects | Lungs-Nuisance dusts |

Aspiration hazard Other

No information available

12. ECOLOGICAL INFORMATION

Fertilizers may be harmful to aquatic life with short term effects, causing algal bloom and increased BOD, depending on the amount released.

| Persistence and degradability | No information available |
|-------------------------------|--------------------------|
| Bioaccumulation | No information available |
| Other adverse effects | No information available |

13. DISPOSAL CONSIDERATIONS

Disposal of wastes:

Excess product should be used up according to label directions, to avoid disposal issues. Dispose of in accordance with Local, State, and Federal regulations.

Contaminated packaging

Dispose empty container with normal trash, unless prohibited by local regulations.

14. TRANSPORT INFORMATION

NMFC 68140-5 FERTILIZER COMPOUNDS (MANUFACTURED FERTILIZERS) NOI, DRY 20 OR **GREATER PCF**

15. REGULATORY INFORMATION

TSCA (USA): Complies.General Product Information:This product is not federally regulated as a hazardousmaterial.No information is available.Clean Air Act:No information is available.Clean Water Act:This product does not contain any substances regulated aspollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

SARA 313 Superfund Amendments: This product contains no chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal regulations, Part 372.

SARA 311/312 Hazard Categories:

| Acute: | Yes |
|-----------------------------|-----|
| Chronic: | Yes |
| Fire: | No |
| Sudden release of pressure: | No |
| Reactive: | No |

CERCLA: This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) and Superfund.

Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

State Regulations:

California Proposition 65:This product does not contain detectable quantities of chemicals known to the State of California to cause cancer or birth defects, or other reproductive harm.

Component Analysis - State: None

16. OTHER INFORMATION

The information provided in this material safety data sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
